

SUCCESS S TORY OF Sri. MURUGAN

Sri Murugan S/o Sri. Chinnappanan is a resident of Erumathanapalli village, Anchetty thaluk, Krisangiri district. This farmer started Ericulture thtrough our Extension communication programme in the Year 20016. At that time he was not doing Ericulture regularly. But at preswnt Sri.

Murugan is doing Ericulture irregularly. He is having more than 0.8 acre of Castor plantation. Murugan is doing Ericulture in his own house with the leaf harvested from his garden our. After our, repeated advice Murugan constructed one small rearing house with capacity of 100 dfls. Yearly the farmer is taking 6 to 7 crops with an average production of 50-60 kgms of cocoons per crop. In 2018 - 2019 the farmer had earned nearly Rs.1,25,000/- (Rupees one lakh twenty five thousand only). He is doing his castor farm activities and rearing activities himself and with th help of his family members. His expenditure may come o Rs 20,000 - Rs.30,000/- rupees per annum and he is earning nearly Rs10,000/- on an average per month. The farmer is following an interated faring system with ragi and tapioca cultivation, keeping cattle and sheeps and poultry. In addition he is having ginger cultivation and banana plantation cultivation. The farmer is happy and his report is that among all crops Ericulture is with less risk and getting satisfactory amount. He and his family is finding out their lively hood through this integrated farming system.

Details of Eri dfls reared and income generated:

Year	Name of the Farmer & Village Shri	Race	Brush ed DFLS	Cocoon in KGs		Cocoon in Nos		Yield / 100 DFLs	Revenue Rs.
